Professional Summary

Versatile Full Stack Developer and IT Technician with experience in web and mobile application development using MERN stack, React Native, and ASP.NET. Currently providing freelance digital solutions to small businesses while actively seeking full-time opportunities to apply technical expertise in a collaborative team environment. Proficient in cloud services including AWS and Azure, UI/UX design, and end-to-end development processes. Complementary background in graphic design and business digitalization strategies.

Technical Skills

Frontend:

React.js, React Native, HTML5, CSS3, JavaScript, Electron.js

Databases:

MongoDB, SQL Server

Tools:

Git, Visual Studio, Bootstrap, Figma

Backend:

Node.js, Express.js, ASP.NET, C#

Cloud:

AWS, Azure

Other:

Hadoop, HiveQL, MFA Security, Technical Support

Professional Experience

Full Stack Developer & Digital Solutions Consultant

Freelance

November 2024 - Present

- Developing custom business catalogues and digitalization solutions for small businesses across diverse industries
- Creating responsive landing pages and web applications tailored to specific business requirements and target markets
- Implementing comprehensive design-to-development workflows, handling UI/UX design, frontend, and backend development independently
- Collaborating with 3+ coding startups as development partner to expand technical expertise and industry knowledge

IT Technician

École Marocaine des Sciences de l'Ingénieur

March 2024 - October 2024

- Contributed to internal development of school platforms and innovative educational projects
- Provided technical support and troubleshooting for Azure cloud services, including user management, password resets, and MFA security
- Managed online meetings via Microsoft Teams and handled calendar planning for staff
- Assisted with data and educational application migration projects

React Developer

CloudLink (Startup)

January 2024 - March 2024

- Received training on Amazon Web Services (AWS) cloud infrastructure
- Integrated APIs and data utilization in a React Native mobile application with AWS backend
- Converted Figma designs into responsive React web applications
- Transformed web applications into desktop applications using Electron.js

Full Stack Developer

ARK-X Talent Solutions

July 2023 - January 2024

- Completed an accelerated learning bootcamp focused on MERN technology stack (MongoDB, Express.js, React.js, Node.js)
- Developed technical and soft skills for professional interviews and industry events
- Created portfolio projects and competitive solutions to real-world problems
- Collaborated with peers on full-stack application development

Web Developer (Intern)

National Center for Road Studies and Research (CNER)

March 2022 - May 2022

- Collaborated on developing a solution for managing office equipment and supplies
- Utilized ASP.NET for front-end and main development components
- Gained valuable experience in real-world application development and teamwork
- Deepened knowledge in ASP.NET, JavaScript, HTML, CSS, C#, SQL Server, Visual Studio, and Bootstrap

Freelance Illustrator and Graphic Designer

Self-employed

2020 - Present

- Design and sell custom clothing and accessories on online platforms
- Create and market hand-drawn and digital illustrations
- Develop brand identities and logos for small businesses
- Apply design skills to enhance web and mobile application UIs

Projects

VersatilesUI - React Component Library

Handcrafted, visually stunning React component library with full light/dark mode support and multilingual capabilities (English, French, Arabic) including RTL support

Technologies: React, CSS3, JavaScript, Vite, i18n

- Full internationalization with RTL support for Arabic
- Theme system with light/dark mode and artistic design elements
- Comprehensive debugging system for development

ClaudFolio - Personal Portfolio

Modern, responsive portfolio website featuring dynamic project showcase, smooth animations, and theme toggle functionality

Technologies: React, React Router, Framer Motion, CSS Modules, Vite

- Responsive design with dark/light mode toggle
- Interactive project filtering and detailed project pages
- Smooth animations and page transitions

Trading Mobile App

Comprehensive React Native trading application with real-time market data, portfolio management, and trading capabilities

Technologies: React Native, Redux, REST APIs, Chart Libraries, Expo

- Real-time market data integration and live stock prices
- Portfolio tracking with performance metrics and analytics
- Interactive charts and technical indicators

Task Management Application

Feature-rich task management system with multiple view modes, project organization, and team collaboration capabilities

Technologies: React, Vite, TailwindCSS, IndexedDB, Framer Motion

- Multiple views: List, Kanban Board, and Timeline calendar
- Drag-and-drop task organization with priority management
- Project analytics and team member management

Moroccan Handmade E-Commerce

Full-stack MERN e-commerce platform showcasing traditional Moroccan products with admin dashboard and secure authentication

Technologies: MongoDB, Express.js, React, Node.js, Vite

- MVC architecture with Controllers, Services, and Repositories
- Admin dashboard for product and order management
- Secure authentication with data sanitization middleware

Education

Specialized Technician in Computer Development

Specialized Institute of Applied Technology (ISTA)

September 2020 - July 2022

Comprehensive training in software development, database management, web technologies, and project management methodologies

Physics and Chemistry (First Year)

Faculty of Sciences of Rabat - Mohammed V University

September 2019 - July 2020

Strong foundation in analytical thinking, problem-solving, and scientific methodology applicable to software development

Baccalaureate in Physics

Lycée Hassan II, Sala Al Jadida

2018

Mathematical and logical reasoning skills with focus on physics principles and analytical problem-solving

Certifications

Full-Stack Engineer Career Path

Codecademy - Professional Certificate

Complete web development lifecycle, front-end and back-end technologies

Learn JavaScript: Best Practices

Codecademy - Course Certificate

Code optimization, debugging, performance best practices

Learn Node.js Course

Codecademy - Course Certificate

Server-side JavaScript, npm, backend development

Learn Express.js Course

Codecademy - Course Certificate

Web application framework, RESTful APIs, middleware

Full-Stack JS MERN Bootcamp

ARK-X Talent Solutions - Bootcamp Certification

MongoDB, Express.js, React.js, Node.js full-stack development

LevelUP Professional Development

ARK-X Talent Solutions - Professional Certificate

Industry best practices, professional skills, career development

Learn JavaScript Course

Codecademy - Course Certificate

JavaScript fundamentals, ES6+, DOM manipulation

Learn Intermediate JavaScript

Codecademy - Course Certificate

Advanced JavaScript concepts, asynchronous programming, modules

Learn MongoDB Course

Codecademy - Course Certificate

NoSQL database management, CRUD operations, data modeling

Learn React Course

Codecademy - Course Certificate

Component-based development, state management, React ecosystem

Prep Week - MERN Stack

ARK-X Talent Solutions - Preparatory Program

Development environment setup, fundamental concepts preparation

Languages

Arabic: Native | French: Professional | English: Professional

Interests

Website Creation, AI Model Training, Drawing and Illustration, UI/UX Design
